"

We believe in working hard with our students! Hence, our only criteria for students is:

"Motivated to learn and committed to crack a job"

NEW AGE SKILLSET -

Our program is focused to make the student Industry Ready. We teach new-age skills required by companies.

HTML, CSS and **Javascript** are the building blocks of every internet page. With this skill set, you'll be able to develop a very web interface!

React is a **JavaScript** library for creating user interfaces used by some of the **best Tech Companies.** (Facebook, Instagram, AirBnB)

Node.js is a multiplatform object-oriented library event-oriented for Server-Side JavaScript applications.

MongoDB is one of the most important **non-relational databases.** We'll use it to store data in form of files, granting us scalability and flexibility.

Express is a framework for web apps based on Node.Js. We'll use it to create fast and performing Web Servers and Web Services
Bootstrap4 is the most adopted framework to create web interfaces. It allows fast and easy creation of responsive web pages.

CURRICULUM -

Data Structures & Algorithms (2-4 Months)

- Linear DS (Stacks, Queues, Linked lists)
- Advanced DS Algo (Trees, Graphs, DP)

Interview

About Eduskills

A skilling company that focuses on employable skill sets to make students job-ready in Africa.

We want to prepare students for the jobs of the future.

Our mentors and instructors are people with experience in top product companies such as Amazon, Google, Visa...Etc.

Our current focus is on Computer Programming, however, in the future, more skill sets will be added based on the requirements of the market.

We are here to help!
